

PEDRO MENDOZA

DevOps / SRE Engineer – Kubernetes, CI/CD & Cloud Operations

Uruguay | +598 93 533 115 | pmendozauy@gmail.com | [linkedin.com/in/pm3ndoza](https://www.linkedin.com/in/pm3ndoza)

ABOUT ME

DevOps and Site Reliability Engineer with 5+ years of experience supporting, operating, and improving cloud-native and hybrid infrastructures in production environments. Strong focus on CI/CD optimization, Kubernetes operations, and Infrastructure as Code to deliver reliable deployments and stable platforms.

TECHNICAL SKILLS

- Core Technologies:
 - Kubernetes - Docker - Containerd - Linux
- CI/CD & Automation:
 - GitHub Actions - Jenkins - Azure DevOps - GitLab CI - Bash scripting - python
- Cloud Platforms:
 - AWS - Azure - GCP
- Infrastructure as Code:
 - Terraform - Terragrunt - Ansible
- Observability & Monitoring:
 - Grafana - Datadog - Telegraf

WORK EXPERIENCE

Site Reliability Engineer — UKG (Apr 2024 – Nov 2025)

- Optimized CI/CD pipelines using Concourse and GitHub Actions by removing deprecated Python 2.8 build stages, reducing deployment time and pipeline complexity.
- Automated self-healing processes for Concourse CI workers, minimizing downtime and manual intervention.
- Led Kafka migrations from deprecated to supported versions, improving stability and security.
- Supported 6 production environments across hybrid infrastructures (bare-metal, OpenStack, cloud).

- Worked with Datadog, K6, Telegraf, and Grafana Cloud during observability migrations.
- Supported enterprise SaaS platform delivering real-time analytics globally.

Cloud Engineer — F1RST (Santander Group) (Apr 2023 – Apr 2024)

- Supported Azure-based production systems for banking platforms.
- Created and optimized Azure DevOps CI/CD pipelines.
- Supported deployments via Argo CD and Kubernetes.
- Used Terraform to import and manage infrastructure.

Cloud Engineer — Platzi (Feb 2022 – Dec 2022)

- Migrated CI pipelines from Jenkins to GitHub Actions, reducing execution time by ~10%.
- Participated in Docker to containerd migration incident resolution.
- Supported Kubernetes clusters and ephemeral environments.
- Improved Terraform repositories and observability dashboards.

Release Engineer — PwC / TCS Uruguay (Aug 2018 – Feb 2022)

- Supported Kubernetes deployments and CI/CD pipelines.
- Managed GCP infrastructure and automated deployments.
- Supported Jenkins pipelines deployments

EDUCATION

Computer Engineering – UNET

CERTIFICATIONS

Professional Scrum Master I | AWS Certified Cloud Practitioner
